

May 13, 1975

SPEAKER: Do you have any motions on the desk?

CLERK: Yes the Warner amendment is pending.

SPEAKER: The Chair recognizes Senator Warner.

SENATOR WARNER: Mr. President, let the amendment does is take out section 7 and 8 which is the land acquisition in one case at the metro technical school and the southeast technical school, and purchase with the state funds. I think that with a machine vote it would be clear to me, at least the majority of the Legislators prefer the method of financing included in 344 obviously then it would not be the intent of any of those advancing the bill to include state funds for acquisition or construction of property for the vocational technical school. So Mr. President, I would ask for unanimous consent that those two sections be stricken.

SPEAKER: Chair recognizes Senator Goodrich.

SENATOR GOODRICH: I would rise in opposition to this amendment. I can report to this body that this took one heck of a lot of work through the budget committee to get these particular sections placed in the bill and I know for example what Senator Warner has in my mind, but I'm asking you to just plain reject the Warner amendment. Because these two particular sections are extremely important to the bill.

SPEAKER: Chair recognizes Senator S. Marsh.

SENATOR MARSH: Mr. President, members of the Legislature. I have helped to get those two sections in the bill and yet I am now supporting Senator Warner. If you are going to go ahead and get 344 through, you believe in that concept, I do not. I have been fighting 344 since it was introduced because I haven't been willing to increase property tax mill levies, my district does not want them and I do not want them. If you are going to go ahead and pass 344 this session then you certainly can not leave these two sections in the budget document. Lets remove them. You made your choice when you advanced 344.

SPEAKER: Chair recognizes Senator Dickinson.

SENATOR DICKINSON: Mr. President, members of the Legislature, I have a couple of questions for anyone who would want to respond regarding the proposal in section 7 of LB611. Whether it will be Senator Goodrich or Senator Mahoney.

SPEAKER: Do you yield?

SENATOR DICKINSON: Will you please tell the body exactly what site has been selected by the metropolitan technical community board?

SENATOR GOODRICH: The same site that was selected the other day when you asked the same question; 27, 28, 29th & Q.
